

About the Cover

We invited a cast of amazing wedding professionals to work together to create the spectacular photograph that graces this cover.

It all started with a vision that was executed beyond our wildest dreams. We started with a showstopper dress—donated by **Brides by Demetrios**—and transformed it into the fresh floral wonder you see, with the magic of those at **The Flower Studio**. While you wouldn't actually wear a dress made of flowers to your own wedding, we thought the concept captured every bride's dream—heaven on earth.

Our model **Natasha** was a patient and enthusiastic participant as our team sewed, glued and primped her to wedding-day perfection. The cameras of **Philip Ramackers** and **Tom Cheswick** captured her at her radiant best. **Nya of Steven Paul Salon** worked our model's hair into some stunning styles, while makeup pro **Linda Wagner** brought out her dewy glow. Stunning accessories by **Custom Jewelry by Lani** adds the bling factor that we love.
